Architecture: AI reads, code decides the numbers

Client on phone
Next.js on Vercel, private link, no account

Trainer dashboard
Next.js on Vercel, Supabase login, approvals

↓

FastAPI backend on Render: every action checked for permission

Workout Logger
AI, Sonnet 5.5: turns chat into sets

Progression Engine
Code: the only source of weights and reps

Progression Planner
AI, Haiku 5.5: flags safety conflicts

Trainer Assistant
AI, Sonnet 5.5: drafts check-ins

↓

Supabase: PostgreSQL and trainer login
